**COVID 19 - ONLINE CLASSES - PARENTS' RESPONSE**

"I agree with all the parent's here. It's not an easy task, to put together something so quickly and so efficiently, to make sure that the young minds continue to learn and stay busy. While we are all going through such hard and anxious times, here are our teachers putting aside all their worries and focusing on getting the education system up and running such difficult times !! Can't thank you all enough !

Thanks Maam for all the efforts you all have put to make students utilise their time during lockdown... It would not be possible until you and your team of teachers whose efforts are the most appreciable ones. The idea of starting online classes was a good initiative carried forward without any interruption is commendable and teachers too pass a positive note to us taking classes at the right time though having other commitments at home.

Always happy and proud to be a part of a Desians family

Congratulations to all the teachers who are taking all the efforts to make virtual classes so much like real class by explaining the concepts till they get a 'Yes' from all students, clearing the doubts and making the sessions interactive in spite of some small technical challenges here and there which is still fine. I personally think 8 AM is a decent start time because children will stick to a self disciplined routine which they would otherwise have to follow during the regular school days. Way to go teachers.....thanking you all.

Hats off to the dedication of the teachers and management of DSE Attapur. Really appreciate the initiative of providing support and guidance to the kids through these online sessions keeping in mind the seriousness of them being in the Grade X. Thank you and cheers to you all on behalf of all we parents. 🙏👍😊

"Teachers are probably the most underrated yet the most powerful professionals in the whole world. Their work has a long-term impact on not just the lives of the children they teach but on society as a whole. They have the power to shape generations, impact minds and make the world a better place." We the parents of Abhinav of Grade XB appreciate and thank the efforts of the teachers and the management to keep our child updated with academics through the online classes during this lockdown period. We also appreciate the way the management has also considered all the security issues related to online classes. Hats off to the teachers and Management of DSE Attapur.

Namaste!

I would like to appreciate the teacher's effort by taking online classes. We thought that my daughter would be losing her study time during lock down. Teachers are explaining clearly and clearing the doubts patiently. Once again I would like to thank your team.

At first, I would like to thank the DSE Management to take this spiffing step towards the implementation of online classes for Grade X in this lockdown period. My daughter is thoroughly following the instructions given by the subject teachers which involve proper explanation and demonstration and it is indeed very interactive.

Online classes are very satisfying. School has given a fantastic way to learn from home. It was a good learning experience via the online classes for the students. Thanks to modern technology, students can now attend classes from the comfort of their homes. Thanks to all the teachers for their dedication and patience throughout the Online classes. Teachers have been putting a lot of effort imparting the best knowledge into the child even through the online classes. Please proceed with your improvement plans. Hope the situation gets better. We are all very appreciative of what you have accomplished and we look forward to more success, which we know that you are very much capable of doing.

I would like to begin by saying how wonderful your take on the continuation of children's education is. The initiative to start online classes so we don't lag later on is truly commendable.

On speaking to my ward, I have come to know these classes are quite helpful and ensure proper learning. The note taking and assignments are not very difficult and the learning is happening quite positively. I am very pleased with this method of teaching.

I would like to thank the Management & Teachers for taking initiation and starting the online classes for the students in this lock-down period and utilizing the time effectively.

Initially I was not convinced with the concept of online teaching because of many factors like student & teacher interaction, Clarity, Network constraints, ... . But after monitoring the classes for a few days I am really impressed with the way classes are being conducted. I especially appreciate and thank the teachers for taking time and putting a lot of effort, creativity (in this pandemic situation) and conducting the classes effectively. Apart from teaching they are giving assignments and keeping the children busy.
